

Tshilidzi Tshivhula

SOFTWARE DEVELOPER

Profile

Passionate Software Developer who is hardworking and willing to learn. Proficient in an assortment of technologies, including Java, Node.js, C, React, Vuejs, Docker, and AWS. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

Employment History

Software Developer Intern, First National Bank

FEBRUARY 2018 – NOVEMBER 2018

Worked as a passionate and dedicated Java Intern in the Integration Department.

Software Developer, Fusebox Online

NOVEMBER 2018 – DECEMBER 2020

Worked mostly on the backend for a consulting company and developed websites and mobile apps for clients.

I was primarily a Backend Developer but I also worked on the frontend using Vuejs and React Native depending on the project when I was needed.

Senior Software Developer, Patient Healthcare Solutions

JANUARY 2020 – PRESENT

Patient Healthcare Solutions(<https://phs.za.com>) is a startup that builds IoT devices for retail and medical departments.

Worked well independently and on a two guys team to solve problems. Using cutting-edge technologies to build our platform.

My daily duties include developing software on AWS server-less platform. Also maintaining a server that we built in Java, also building Node.js programs that ran on Raspberry Pi and communicate to our server-less APIs and function via MQTT. I also work on our front-end that is built in React and we currently developing a mobile app in using React Native.

Software Developer Contractor, Fusebox Online

MAY 2021 – PRESENT

Working as a full-stack developer at Fusebox Online

Education

Software Engineering, We Think Code

JANUARY 2017 – JANUARY 2018
